

# Spinomenaphine

By Maximous Stokes and Samuel Stokes

*(Two happy looking FISHERS are sitting on a dock fishing)*

FISHER 1: I used to suffer from back pain, *(Over-excitedly says)* but then I tired Spinomenaphine!

NARRATOR: Spinomenaphine is a simple pain reliever that helps loosen the muscles in your back.

FISHER 2: After only three and half years of taking Spinomenaphine, I can stand up straight and lie down without pain.

FISHER 1: And the best part, we can even go fishing again!

NARRATOR: Do not take Spinomenaphine if you are allergic to any of the following things: *(FISHER 2 looks more and more concerned with each of the following items)* Peanuts, soy beans, eggs, shellfish, wheat, cow's milk, goat's milk, water buffalo milk, skim milk, 2% milk, almond milk, milk of magnesia, roses, sunlight, grass, human flesh, gravity, or cats.

FISHER 2: Oh no! I'm allergic to every single one of those things! What are the chances?! *(throws down fishing pole and runs offstage)*

NARRATOR: Side effects may include: Headaches... *(FISHER 1 puts hands on head and groans)* Dizziness... *(FISHER 1 starts spinning dizzily)* Hallucinations...

FISHER 1: *(hallucinating)* Auntie Em, Auntie Em, is that you?

NARRATOR: Hair loss... *(FISHER 1 reaches up and pulls a lock of hair out)* Drowsiness... *(FISHER 1 yawns and stretches)* Uncontrollable Vomiting... *(FISHER 1 starts to make retching sounds)* and in severe cases, turning into a zombie...

FISHER 1: *(walking with hands outstretched like a zombie)* Braaaaaaaains! Braaaaaaaains!!

NARRATOR: ...and death.

FISHER 1: *(collapses to the ground dramatically)* Goodbye, cruel world!

NARRATOR: Ask your doctor...

FISHER 1: *(interrupting)* I just wanted to go fishing!!!!

NARRATOR: ... if Spinomenaphine is right for you!
